How long does it take?

Get your test done through XtraCare Lab at an affordable price. We connect you with NABL-accredited labs, expert technicians, and a fast report delivery system.

For this test, which is simple and painless, the patient simply lies on a table that slides into the machine while taking images. However, modern centers now offer faster scanning, improved comfort, and clear reports for precise treatment planning. So, while booking a Arthritis in India, there are multiple things to consider, like accuracy, expertise, timing, and additional facilities offered by the centers. And Xtracare Lab connects you with the reputed lab at an affordable price to ensure all these features

For this test, which is simple and painless, the patient simply lies on a table that slides into the machine while taking images. However, modern centers now offer faster scanning, improved comfort, and clear reports for precise treatment planning.
