

Everything You Need to Know About Vape Kits in the UK

Shopping for vape products online is easier when you can find your device, [e-liquid](#) and replacement parts in the same place. Tidal Vape brings together [vape kits](#), [refillable pods](#), prefilled systems, e-liquids, [coils](#), [tanks](#), [batteries](#) and [accessories](#), giving UK customers a broad range of products to compare.

The store carries hardware from brands including [Aspire](#), Geekvape, [Lost Vape](#), Voofoo, [Vaporesso](#), OXVA, Uwell and others. Its e-liquid catalogue covers nicotine salts, 50/50 liquids, shortfills and high-VG options, with more than 1,000 e-liquids currently listed across the wider collection.

If you already know what you want, you can shop directly by brand or product type. If you are unsure, the different categories make it easier to narrow down your choices.

TRUSTED BY VAPERS ACROSS THE UK | ★★★★★ EXCELLENT ★ Trustpilot

The advertisement features a collection of vape products including a Wenax pod, a Geekvape kit with a digital display showing '200', a Vaporesso pod, a 30W tank, and two bottles of e-liquid: Double Drip Nic Salt (Blue Raspberry) and IVG Blue Slush. The products are displayed on a dark, textured surface against a blue, smoky background.

Vape Kits for Different Vaping Styles

Not every vaper needs the same type of device. A compact pod can make more sense

for someone who wants a small everyday vape, while an experienced user may prefer a larger kit with adjustable power and a separate tank.

Tidal Vape's vape kit collection includes [starter kits](#), [pod kits](#), advanced devices, prefilled pod kits, [closed pod systems](#), MTL kits and sub-ohm hardware.

Some of the less familiar options worth exploring include:

- **Aspire Veynom LX Pod Vape Kit**
- [Aspire Veynom EX Pod Vape Kit](#)
- **Aspire Veynom Air Vape Kit**
- **Aspire Pixo Pod Vape Kit**
- [Aspire BP Stik Pod Kit](#)
- **Aspire Rover Plus Vape Mod Kit**
- **Geekvape Wenax Q Pro Pod Vape Kit**
- **Geekvape Soul Vape Kit**
- [Geekvape Aegis Legend III Vape Kit](#)

These devices cover very different formats, so checking the specifications is more useful than choosing simply by brand or appearance. Tidal Vape's current Aspire collection alone includes pod kits, mods, coils, tanks and accessories.

Compact Pod Kits

[Pod kits](#) are generally smaller than traditional box-mod setups and are available in both simple and more adjustable formats.

Tidal Vape's pod collection includes refillable devices from Aspire, [Geekvape](#), Lost Vape, Voopoo, Vaporesso, OXVA, [Uwell](#) and Innokin. Many use built-in rechargeable batteries and refillable pods, although specifications vary between models.

If you want to look beyond the usual XROS and XLIM options, consider:

- **Aspire Minican 3 Pro Pod Kit**
- **Aspire Cyber G Slim Pod Vape Kit**
- [Aspire GoTek X Pod Kit](#)
- **Aspire GoTek X2 Pod Kit**
- **Geekvape Sonder Q2 Pod Vape Kit**
- **Geekvape Wenax Q Pod Vape Kit**
- **Lost Vape Ursa Nano S 2 Pod Kit**
- [Lost Vape Ursa Nano 2 Pod Kit](#)
- **Lost Vape Ursa Nano 3 Pod Kit**

- **Lost Vape Ursa Epoch Pod Kit**

These give shoppers a useful spread of compact devices without having to move into larger advanced hardware.

Aspire Vape Kits at Tidal Vape

[Aspire](#) has a particularly broad presence on Tidal Vape. The collection includes pod systems, starter kits, vape pens, mods, tanks and replacement coils.

Some of the current Aspire products include:

- **Aspire Veynom LX Pod Vape Kit**
- [Aspire Veynom EX Pod Vape Kit](#)
- **Aspire Veynom Air Vape Kit**
- **Aspire Pixo Pod Vape Kit**
- [Aspire BP Stik Pod Kit](#)
- **Aspire Minican 3 Pro Pod Kit**
- **Aspire Cyber G Slim Pod Vape Kit**
- **Aspire GoTek X Pod Kit**
- **Aspire GoTek X2 Pod Kit**
- **Aspire Rover Plus Vape Mod Kit**

There are also replacement parts such as [Aspire BVC Replacement Coils](#), **Aspire PockeX Coils**, [ASPIRE ODAN MESH COIL](#) and **Aspire PockeX Replacement Glass**.

That makes the Aspire section useful if you already own one of its devices and need compatible parts rather than another complete kit.

Geekvape Devices for Pod and Mod Users

Geekvape's range at Tidal Vape covers compact pod systems as well as larger devices.

The collection includes:

- **Geekvape Wenax Q Pro Pod Vape Kit**
- **Geekvape Soul Vape Kit**
- **Geekvape Aegis Legend III Vape Kit**
- [Geekvape Sonder Q2 Pod Vape Kit](#)
- **Geekvape B100 Aegis Boost Pro 2 Vape Kit**

The Aegis range is particularly relevant if you prefer larger hardware, while the Wenax and Sonder lines offer smaller pod formats. Tidal Vape describes its Geekvape selection as covering both beginner-friendly and more advanced devices.

When choosing between them, consider:

- Device size
- Battery requirements
- Pod or tank type
- Coil availability
- Maximum power
- Airflow control
- The type of e-liquid you intend to use

Lost Vape Pods and Mods

Lost Vape gives you another route if you want something different from the more familiar pod ranges.

Its current Tidal Vape collection includes:

- **Lost Vape Ursa Nano S 2 Pod Kit**
- **Lost Vape Ursa Nano 2 Pod Kit**
- [Lost Vape Ursa Nano 3 Pod Kit](#)
- **Lost Vape Ursa Epoch Pod Kit**
- **Ursa Cap Pod Kit by Lost Vape**
- [Lost Vape Centaurus E40 Max Pod Kit](#)
- **Centaurus N100 Vape Kit**
- **Centaurus N200 Vape Kit**
- **Centaurus N100 Box Mod**
- **Centaurus N200 Box Mod**
- **Lost Vape Centaurus M200 Box Mod - 200W**

The collection also includes [Lost Vape E-Plus XL Replacement Pods](#), **Lost Vape UB Max Replacement Coils** and **Ursa Replacement Pods**.

This means you can shop across the Lost Vape range whether you are looking for a compact pod or a larger box-mod setup.

Voopoo Vape Kits Beyond the Argus Range

Voopoo is another brand with a large selection at Tidal Vape. Its catalogue includes Argus, Drag, Vinci and V series products.

If you want to explore some of the models beyond the devices commonly featured in beginner guides, look at:

- **Voopoo Argus Z2 Pod Vape Kit**
- [Voopoo Argus P1S Pod Kit](#)
- **VooPoo Vmate Max Pod Vape Kit**
- [VooPoo Vinci Spark220 Vape Kit](#)
- **Drag H40 Pod Vape Kit by VooPoo**

The **Vinci Spark220** is aimed at users who want a more substantial device, while the Argus P1S and Vmate Max sit closer to the compact pod side of the range.

Tidal Vape's Voopoo collection currently contains more than 30 products, giving you room to compare several device formats rather than choosing from just one series.

Refillable Pods and Replacement Parts

Buying a vape kit is only part of maintaining a setup. Pods and coils eventually need replacing, particularly if you use the device regularly.

Tidal Vape stocks replacement components across multiple brands.

You can find products such as:

- **Lost Vape E-Plus XL Replacement Pods**
- **Lost Vape UB Max Replacement Coils**
- **Ursa Replacement Pods by Lost Vape**
- **Aspire BVC Replacement Coils**
- **Aspire PockeX Replacement Coils**
- [ASPIRE ATLANTIS EVO COIL](#)
- **ASPIRE ODAN MESH COIL**
- **Aspire PockeX Replacement Glass**
- [ASPIRE NAUTILUS X 1.8 OHM COIL](#)

The store also has dedicated collections for coils, tanks, batteries, chargers, glass and other vape accessories.

Before ordering a replacement, check the exact model and coil family your device uses. Compatibility is not universal, even between products from the same manufacturer.

Choosing E-Liquid for a Pod Kit

Once you have selected a device, you need an e-liquid that suits it.

Tidal Vape's e-liquid collection includes nicotine salts, [50/50 liquids](#), [shortfills](#) and high-VG options. The site also separates flavours into categories such as fruit, menthol, dessert, candy, drinks and tobacco.

For lower-powered pod devices, commonly considered options include:

- Nicotine salts
- 50/50 e-liquids
- Lower-VG blends
- Flavours in smaller 10ml bottles

For larger sub-ohm devices, suitable high-VG liquids and shortfills are generally the more appropriate choice.

Always check the manufacturer's recommendations for the specific pod or coil rather than assuming that every e-liquid can be used in every vape.

50/50 E-Liquids

[50/50 e-liquid](#) contains an equal balance of PG and VG. Tidal Vape's dedicated 50/50 collection includes a wide selection of flavours and is positioned for pod and starter-kit users.

Some of the 10ml products available across the wider catalogue include:

- [Drifter Bar Salts Blue Razz Lemonade](#)
- Strawberry Raspberry Cherry Ice by Elf Bar Elfliq
- Triple Mango Bar Salts by Lost Vape
- Blue Mint by Just Juice
- All Day Grape by Vampire Vape
- [Rainbow Blaze by Pukka Juice](#)

The flavour range extends well beyond fruit, with menthol, dessert, drink and tobacco-inspired profiles also available.

If you are buying several bottles, Tidal Vape regularly runs multi-buy offers across selected e-liquids. The live collection currently shows offers such as 3 for £10 and 5 for £15, although promotions can change.

Nicotine Salt E-Liquids

[Nicotine salts](#) are widely used with compatible [pod systems](#) and lower-powered devices.

Tidal Vape's current nicotine salt collection contains hundreds of products, giving shoppers plenty of choice when it comes to flavours and brands.

Some alternatives worth browsing include:

- **Drifter Bar Salts Blue Razz Lemonade**
- **Strawberry Raspberry Cherry Ice by Elf Bar Elfliq**
- **[Triple Mango Bar Salts by Lost Vape](#)**
- **Just Juice Bar Nic Salts**
- **Seriously Fusionz 10ml Nic Salt**
- **Pukka Juice 5000+ 10ml Nic Salts**
- **Cloud Nurdz Bar Juice 10ml Nic Salt**
- **Bar Xtra Nic Salts by Slushie**
- **Ramsey Bar Fusion V2 Nic Salts**
- **Crystal Clear Bar Salts Nic Salts**
- **Aisu Bar Salts**

Tidal Vape also stocks dedicated ranges from brands such as [OXVA OX Passion](#), Lucky Thirteen, Pod Salt Nexus and [Vampire Vape](#).

Shortfills for Larger Vape Kits

[Shortfills](#) are larger bottles of e-liquid supplied without nicotine. They typically leave space for nicotine shots to be added where required.

Tidal Vape's shortfill collection contains hundreds of products, including 50ml, 100ml and larger-format options.

New flavours to explore include:

- **Pod Salt Nexus Mango Strawberry Peach 100ml Shortfill**
- **Pod Salt Nexus Grape Berry Burst 100ml Shortfill**
- **Pod Salt Nexus Fuji Apple Peach 100ml Shortfill**
- **Mango Strawberry Moreish Puff Manju Man 100ml**

- **Mango Banana Moreish Puff Manju Man 100ml**
- **Mango Grape Moreish Puff Manju Man 100ml**
- **[Seriously Pod Fill x2 Melon Citrus 100ml](#)**
- **Seriously Pod Fill x2 Lemon Kiwi 100ml**
- **Seriously Pod Fill x2 Cookie Dough 100ml**
- **[Seriously Pod Fill x2 Blueberry Pomegranate 100ml](#)**
- **Seriously Pod Fill x2 Caramel Coffee 100ml**
- **Vanilla Berry 100ml by Pixie Juice V2**
- **Grapefruit & Pineapple 100ml by Supergood**
- **Peach Blackberry & Raspberry 100ml by Supergood**
- **Guava Dragonfruit & Blueberry 100ml by Supergood**
- **Mango Papaya & Passion Fruit 100ml by Supergood**

These larger bottles are generally intended for suitable higher-powered devices. Tidal Vape specifically positions its high-VG shortfills towards sub-ohm vaping.

E-Liquid Deals at Tidal Vape

If you go through e-liquid quickly, multi-buy offers can make more sense than purchasing individual bottles.

Tidal Vape currently has several different deal structures across its e-liquid catalogue.

Examples include:

- **[3 e-liquids for £10](#)**
- **[5 e-liquids for £15](#)**
- **[10 e-liquids for £25](#)**
- **[2 shortfills for £30](#)**
- **[3 shortfills for £30](#)**
- **Selected 100ml e-liquids at 2 for £30**
- **Selected shortfills at 2 for £25**

The exact products included in each promotion can change, so check the live offer collection before ordering.

The 2 Shortfills for £30 collection currently includes brands such as Just Juice, Pukka Juice, Twelve Monkeys and Vampire Vape.

Vape Tanks, Coils and Accessories

A good online vape shop needs to cover more than complete devices.

Tidal Vape has dedicated collections for [vape tanks](#), coils, [batteries](#), chargers, glass and other accessories. Its collection sitemap also lists specialist sections for SMOK, Innokin, Horizon Tech, Uwell, Vapwiz, Voopoo, Freemax and Aspire coils.

That is useful when:

- Your current coil needs replacing.
- You need a spare pod.
- A tank glass has cracked.
- You want to change tanks.
- You need compatible batteries.
- You want a dedicated battery charger.
- You need a replacement drip tip or other small accessory.

Rather than replacing an entire vape when one component wears out, checking the replacement-parts section first can be a better option.

Why Shop Online with Tidal Vape?

The biggest advantage of having kits, e-liquids and accessories together is that you can build a complete setup in one order.

Tidal Vape's current catalogue provides access to:

- More than 140 vape kits.
- More than 1,000 e-liquid products.
- Refillable pod systems.
- Prefilled pod kits.
- MTL and sub-ohm devices.
- [Nicotine salts](#).
- [50/50 e-liquids](#).
- Shortfills.
- [High-VG liquids](#).
- Vape tanks.
- Replacement coils.
- Replacement pods.
- Batteries and chargers.
- Glass and other accessories.

Selected vape kits also come with two free e-liquids, while Tidal Vape offers click and collect alongside delivery options.

Find Your Next Vape at Tidal Vape UK

The Tidal Vape catalogue is broad enough that you do not have to stick to the same type of device you have always used.

For compact pods, you could compare the **Aspire Pixo**, **Aspire Minican 3 Pro**, **Geekvape Soul**, **Geekvape Wenax Q Pro**, **Lost Vape Ursa Nano 3** and **Voopoo Argus P1S**.

For larger hardware, there are options such as the **Aspire Rover Plus**, **Geekvape Aegis Legend III**, [Lost Vape Centaurus N100](#) and **VooPoo Vinci Spark220**.

Then there is the e-liquid side, where you can move from 10ml nicotine salts to larger shortfills such as **Pod Salt Nexus Mango Strawberry Peach**, **Seriously Pod Fill x2 Melon Citrus**, **Vanilla Berry by Pixie Juice V2** or **Mango Papaya & Passion Fruit by Supergood**.

The important thing is to match the products rather than shopping by appearance alone.

Check:

- Pod or tank compatibility.
- Coil resistance.
- Recommended wattage.
- E-liquid ratio.
- Nicotine strength.
- Battery requirements.
- Availability of replacement parts.

Tidal Vape gives UK customers a single place to compare vape kits, pods, e-liquids and the parts needed to keep those devices running. With options ranging from compact pod systems to advanced box mods and from 10ml nicotine salts to 100ml shortfills, there is plenty to explore without limiting yourself to one brand or device type.

Browse the current Tidal Vape range, check the specifications of your chosen products and make sure your e-liquid, pod and coil are suitable for the device you intend to use.

Vaping products are intended for adults aged 18 and over. Nicotine is addictive.
